# CYBER DEFENCE FORUM

## Determining the Future of International Cyber Defence Capabilities

### INTRODUCTION

Cyber defence is the ultimate necessity to protecting yourself on your computer. We know that Internet security programs and spam filters are not always enough; but high-level cyber defence, providing ultimate protection is not far away as you may think. Come join us in October to learn more about what is best for you in an exclusively non-traditional conference.

We want you to join our round-table discussions, participate in our interactive workshops, and gain the most up-to-date information in the field of cyber defence. This conference will guarantee face time with experts in the field, get your questions answered, and include your personal input and opinions in our shared knowledge sessions. Don't miss this opportunity as we discuss and instruct on the following:

- ✓ Shifting from a reactive to proactive cyber defense system
- ✓ Clarifying the legality of specific cyber operations
- ✓ Identifying the risks associated with 'going cloud'
- ✓ Introducing improvements on intruder identification
- ✓ Creating a force to combat the next generation of cyber issues
- ✓ Providing a logical structure of cyber managers

### GUEST SPEAKERS

-  **Col. Pietro Nofroni**  
Day 1, 14:30 & 16:40, Day 2, 09:50  
Italian MoD
-  **Lt. Col. Ángel Gómez De Ágreda**  
Day 1, 14:30  
Spanish Ministry of Defence
-  **Lt. Col. Tamas Nagy & Richard Pregent**  
Day 1, 10:30 & 14:30  
NATO
-  **Dr. Steve Purser**  
Day 1, 10:30 & 16:00  
European Network & Information Security
-  **Lt. Col. (Rtd) Bill Hagestad**  
Day 1, 16:40  
Red Dragon Rising
-  **Dr. Harald Niggemann**  
Day 1, 09:50  
German Federal Office for Information Security
-  **Victor Udoh**  
Day 2, 09:10  
Nigerian Air Force
-  **Hamam Riza**  
Day 1, 09:10  
Indonesian MoD
-  **John Bumgarner**  
Day 1, 09:50  
US Cyber Consequences Unit
-  **Jorge Machorro**  
Day 1, 09:50  
Mexican Ministry of Communications & Transport
-  **Stefano Ramaccloti**  
Day 1, 10:30  
Information e-Security Department (Italy)

Day 2, 10:30  
Moscow State University
-  **Hubert Lucashak**  
Day 2, 14:30  
Polish MoD
-  **Paul De Souza**  
Day 2, 10:30  
Founder of the Cyber Security Forum Initiative

### DATES & EVENTS

October 23, 2012  
Pre-Conference Workshops

**Workshop A 09:00-12:00**  
 Topic: Cloud Computing: Defining the Next Generation  
Host: Rob Kloots (Trusting the Cloud)

**Workshop B 13:00-16:00**  
 Topic: Network and Physical Penetration Testing  
Host: Jeff Moulton (Georgia Tech Research Institute)

October 24, 2012  
Forum: Day 1

#### Notable Panels

09:50  
Exploring the legal framework that governs cyber security in light of a drive to ensure defence is proactive rather than reactive

10:30  
Classifying the 5th dimension of warfare: Ensure the boundaries are agreed and kept by all

14:30  
Direction in which cyber warfare is likely to progress and the need to ensure that capabilities match the current threat

16:40  
Exploring the threat landscape, techniques and technologies employed to create cyber threats

#### Other Events

09:00  
Opening Address

12:20  
Round Table Discussions

16:00  
Presentation: Ensuring cyber integrity in the battlefield

October 25, 2012  
Forum: Day 2

#### Notable Panels

09:50  
Building an effective response ability to ensure reactive defence capabilities are met

10:30  
Establishing a proactive mission stance

14:30  
Developing and securing military networks that will allow secure communications and fluid exchange of information between allies but successfully defend against enemy intrusion

October 25, 2012  
Forum: Day 2

#### Other Events

09:10  
Keynote Address: Cyber plans and policy: Adopting a proactive approach to cyber defence

12:20  
Round Table Discussions

16:00  
Presentation: Implementing cloud computing into existing military networks to enhance data manipulation

16:40  
Increasing network security without disrupting communications

### REASONS TO ATTEND

- Listen to the leading experts in the field of cyber defence
- Learn how to implement the most up-to-date information about cyber defence
- Learn how you can take advantage of the best new defence techniques to guarantee better protection for yourself
- Input your own opinions and ideas about cyber defence
- Participate in unique, round table discussions rather than simply sitting back and letting others do the talking
- Learn about and discuss future advancements of cyber defence
- Participate as a member of our interactive workshops
- Ensure that your questions and concerns are addressed by the leading experts in the field
- Meet and interact with others from around the globe and explore the beautiful city of Prague
- Learn how you can make a significant impact on future decisions made about cyber defence

### Pricing

Main Conference	€ 899
Main Conference + 1 Workshop	€ 1,099
Main Conference + 2 Workshops	€ 1,149

\*Prices do not include Czech VAT at 21%

Inquire about early bird specials and group discount rates!

"High-quality event, perfect mix of presentation and networking time, good mixture of speakers, very interesting content"

~ Global PCT IT Security Officer, Germany
